This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 of the Environmental Conservation Law (State Environmental Quality Review Act).

The Planning Board, as Lead Agency, has determined that the proposed Wetzl multi-family project may have a significant effect on the environment including the potential for adverse impacts to the surrounding area by way of surface water (consisting of the stream corridor and wetlands), plants and animals, open space and ecosystems, transportation, consistency with the Town of Hamburg Comprehensive Plan, and community character of the existing area.
