Sewer Districts

This budget includes two types of sewer districts, which are described as follows:

1. Sewer Districts 1, this district is governed by an individually separate board of commissioners. The Town provides administrative support for this district.
2. Sewer Districts 4 - 30, these districts were established and previously operated by the Town. The Town Board acted as the governing body for these districts.

The governing board of Sewer District No. 2 Mt. Vernon turned over operation of the sewer district to the Town during 2013.

In evaluating sewer operations the Town Board (and the Commissioners of one of the commissioner governed districts) determined that the sewer operations could be operated and managed more efficiently on a regional basis by the County of Erie. Therefore, the operations, management and future improvement of all Town sewer districts and one commissioner district have been turned over to the County of Erie. Presented in this budget are only those districts with ongoing operations (the remaining commissioner district) and those districts with ongoing responsibility for the repayment of debt. None of the districts which are now being operated by the County of Erie have any associated real property taxes to be levied by the Town of Hamburg.

Water Districts

During 2008, the Town evaluated water district operations. The method at that time involved the Town being responsible for water district transmission line construction and major repair, and the Erie County Water Authority ("ECWA") providing water service and responsible for minor line repair. The Town subsequently reached an agreement with the ECWA whereby the Town was to provide for improvements to the water infrastructure to bring such infrastructure to ECWA standards. The Town has completed the required improvements and all water distribution infrastructure has been turned over to the ECWA. The ECWA has assumed responsibility for all future service and infrastructure.

In order to facilitate the Town-wide improvements to the water transmission lines the Town has initiated water district X 37 "Town-wide Master Water Improvement Area". All existing water districts will no longer provide for any further improvements; however, those districts with existing debt will continue to levy taxes for required debt service payments until such debt is retired.

Presented in this budget are only those districts with ongoing debt service requirements.
