

Step 1. Visit www.sk8gr8.com/registration

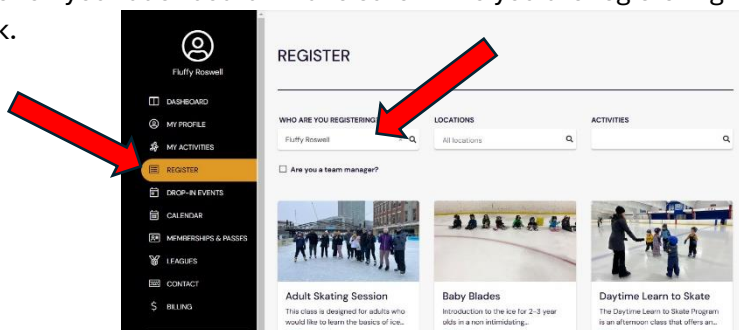

Step 2. Click on “Register Online” tab under the program you want.

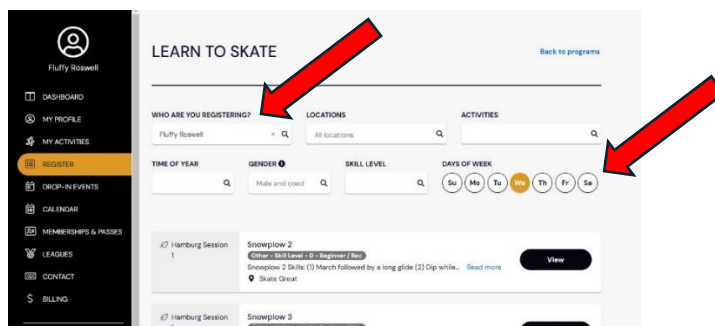

Step 3. Create an account.

Step 4. Click Register on your dashboard. Make sure “Who you are registering” is the correct participant and leave the other fields blank.

Step 5. Click on the program you are registering for. Leave most fields blank, except for the person you are registering for, and **choose your day(s)**. If you are missing a prerequisite, we will add it and move you to the correct level, but you would need to register for Basic 1 (7 years old and up) or Snowplow 1(3-6 years old) first.

***Please note** – if you are currently in a program and want to register for next session, register for your current level. The system will automatically move your skater to the next level if they pass when tested at the end of this session.
